SOFTWARE
GUARD LEVEL® FRS

ACCESSIBLE FROM ANY COMPUTER WITH LOG-ON CREDENTIALS.

CLOUD BASED SQL DATABASE PROGRAM.

SECURE DATA STORAGE.

EXPORTING FOR DATA MINING.

VESSEL NAME, DATE AND TIME.

TRENDING AND DATA GRAPH.

FMS IN CONJUNCTION WITH FRS PROVIDES AUDIT TRAIL OF VESSEL POSITION, FUEL BURN AND RELATED DATA.

Our GUARD LEVEL® Fleet Reporting Software (FRS) is a low-cost cloud-based software for disseminating fuel data used with the Bergan GUARD LEVEL® Fuel Management System. With the Fleet Reporting Software cloud, you have 24/7 access to data. Upload daily fuel reports, download raw data and generate and review graphical presentations of selected data sets.

You own and control your vessel's proprietary data which is securely password protected – assuring reliability and peace of mind. The FRS software is a SQL database program that is hosted by a third party.
