# GUARD LEVEL® PTDU

**PORTABLE** TEMPERATURE READOUT.

DEGREE F OR C.

USED TO READ TEMPERATURES FROM OUR BARGE CARGO TEMPERATURE UNIT (BCTU).

**DISPLAYS** UP TO THREE SENSORS SIMULTANEOUSLY.

CLASS 1, DIV. 1, GROUPS C & D.

FOUR AA BATTERY POWERED.

**CERTIFIED** INTRINSICALLY SAFE.

REPLACES MESSY MANUAL THERMOMETERS WITH CLEAN ACCURATE TEMPERATURE GAUGING.

The GUARD LEVEL® Portable Temperature Display Unit (PTDU) is an Intrinsically Safe battery operated temperature display device. When connected to the GUARD TEMP™ Barge Cargo Temperature Unit (BCTU), it provides quick and easy tank temperature indication of up to three measurement points simultaneously. The BCTU can be configured to display either degrees Fahrenheit or Celsius. With its gold-plated spring connector and coaxial design, the BCTU is easily connected/disconnected to the PTDU.
