BARGE CONNECT

COMMUNICATES CARGO, FUEL & VESSEL DATA.

EQUIP YOUR SYSTEM WITH THE LATEST TECHNOLOGY WITHOUT HAVING TO REPLACE THE ENTIRE SYSTEM.

INTEGRATES INTO ANY EXISTING TANK LEVEL ALARM SYSTEM, EVEN OUR COMPETITORS.

Barge Connect is a small unit that brings the power of Bergan Connect to any existing tank level alarm system. With Barge Connect, you can transmit tank level alarm data, such as vessel GPS location, alarm status, alarm history, sensor data, and more. View all of this data on our user-friendly Bergan Connect dashboard, which you can access from any device with an internet connection.

At Bergan Marine Systems, we understand technology is ever changing. We want to help you stay ahead of the curve without costly replacements. Our retrofitting service allow you to update your current system with the latest tech., and our Barge Connect can integrate with any tank level alarm system, regardless of manufacturer.
